Dearborn, and Cully, of Franklin, compose the minority, and Chairman Morgan represents the majority. The minority is for the bill and the majority against it.

**Constitutional Amendment.**  
A resolution to amend the State Constitution was introduced in the House yesterday by Representative Cruse and was ruled out of order by the speaker. The resolution was to prevent perjury. The speaker explained that he will hold such resolutions out of order until the Supreme Court acts on the question whether or not the amendments voted on at the last election carried.

**Opposition to It.**  
On the question of restricting part of Indiana for judicial purposes, so as to make a separate circuit of Shelby county, the attorneys there are opposed to it almost as a unit. Should the scheme succeed, it would mean that a Republican Governor would appoint a judge in place of Judge Douglas Morris, of Rushville. Yet the Republican lawyers are the most openly opposed to the change.

**A Favorable Report.**  
At a meeting of the library committee of the House yesterday it was decided to report favorably on Mr. Mummett's bill providing for the establishment of libraries in cities, towns or townships. State Librarian Henry has been taking an active interest in the bill and believes it is a meritorious measure.

**Queen Victoria Resolution.**  
In the House yesterday morning a resolution deploring the death of Queen Victoria was introduced by Mr. Mummett and unanimously passed.

## THE DOCTOR'S WIFE

### Watches the Effect of Proper Feeding.

"I have an excellent opportunity to know of the effect of food in sickness, for my husband is a practicing physician and has been recommending Grape-Nuts food for some time. I have watched the result, and have never known a case where it has not given satisfaction.

"One instance will perhaps suffice to illustrate: A professor in the high school here was in very poor health from stomach trouble. He finally got into such a condition that he could not eat any food whatever without suffering, and was so reduced in strength that he could hardly walk. He was put on Grape-Nuts food and gained rapidly and is now in good health. His cure was effected by the use of Grape-Nuts food." MISS DR. LYMAN, Croton, O.

He Shifts His Ambition from Nicaraguan Canal Commissioner to That of Tax Gatherer.

RETURN OF THE VOLUNTEERS

EFFORTS OF THE WAR DEPARTMENT TO EXPEDITE MATTERS.

Officers and Men in the Philippines Complaining of Slow Pay—The Venezuelan Asphalt Dispute.

Special to the Indianapolis Journal.

WASHINGTON, Jan. 23.—Charles S. Herny, of New Castle, is here. He appears to have abandoned hope of the passage of the Nicaraguan canal bill by this Congress, and with it his prospect of securing a place as one of the commissioners for which the measure provides. Accordingly, it is said, he has shifted his ambition and now wants to sit at the gates and gather taxes in the place of A. A. Novlin, collector of internal revenue for the Sixth district. He is likely to get something, but just what cannot now be said. The senators have not yet come to a division of the offices that will fall to their lot, and until they do no one can guess what any particular office will get nor to whom any particular office will go. They will probably arrange their slate before many days.

Senator Chandler, in view of the constitutional enactments of Louisiana and other Southern States and the proposed legislative action of Maryland disfranchising illiterates with the object of taking the vote from the negro or to make the States surely Democratic, to-day proposed an amendment to the legislative appropriation bill now pending appropriating \$25,000 to enable the Department of Justice to institute and carry on legal proceedings to test the legality of any provision of the Constitution or laws of any State which may seem to be in violation of the fourteenth and fifteenth amendments to the Constitution of the United States.

Representative Zeno to-day introduced a bill increasing the pension of Sarah J. Paynter, widow of Christian Paynter, Second Lieutenant, Company D, Second Indiana Infantry, who died in 1862.

I. S. Gordon, of Indianapolis, is here, attending the meeting of the Manufacturers' National Association.

Senator Beveridge and Representative Watson have returned.

Representative Watson and family have taken apartments at the Ebbitt House for the rest of the session.

**VOLUNTEERS RETURNING.**

Several Regiments Will Soon Be En Route Home from Manila.

WASHINGTON, Jan. 23.—The War Department is doing what it can to expedite the home-coming of the 9,000 volunteers in the Philippines whom General MacArthur reported could be spared at once without impairing the efficiency of his army.

There has been some delay in the movement of these troops owing to the difficulty of getting them to Manila, the point of embarkation, and at the same time getting other troops to the Philippines.

General MacArthur has reported that he needs at least 60,000 for the numerous garrisons at various points in the archipelago and the 9,000 troops ordered home are in excess of that number.

The army has been ordered to the extent of troops transferred from China. The arrival of these fresh troops permitted the return to the United States of the equal number of volunteers whose terms of service have nearly expired.

The Thirty-seventh Volunteer Infantry has already started for home on the Sheridan and the Eleventh Volunteer Cavalry and the Thirty-sixth Volunteer Infantry are to follow.

It is expected the last mentioned organization will sail from Manila to-day on the 28th and the Eleventh Cavalry or some other regiment will follow on the 28th and the Meade on the 1st proximo.

The transport Kintuck arrived at Manila to-day.

Complaints are reaching the War Department from the officers and men in the Philippines over the delays in the payment of their salaries. Owing to the small number of pay officers in the present organization and the large extent of territory in the Philippines in which the army is dispersed the pay department has not been able to pay troops often than once in four months.

The troops at the end of the line are easily accessible posts, are paid regularly every month.

**WILL BE NEUTRAL.**

State Department Will Favor Neither of the Asphalt Companies.

WASHINGTON, Jan. 23.—The State Department has decided to maintain an attitude of exact neutrality as between the claims of the two asphalt companies in Venezuela. Accordingly, Mr. Loomis has been instructed not to accept any threatening tone in his representations to the Venezuelan government on this subject; not to indicate a purpose to employ military or naval force in the interests of either party to the controversy, but simply to ask, in the usual diplomatic manner, that the claims of the United States be respected.

He will protest, by direction of the State Department, against any attempt by the Venezuelan executive of the rights of these American claimants, but the protest simply will be for the purpose of basing future reclamations.

Former Senator Frank Hancock, representing the Warner-Quinn asphalt syndicate and George Francis V. Greene, who represents the New York and Bermudez Company, appeared before Solicitor Pennington and the State Department. The two indulged in a colloquy characterized by some warmth of expression, the outcome of which was a declaration of the rights of the Warner-Quinn people to reject any offers of compromise and to go on working the asphalt in the interests of the faith, to the exclusion of the law.

**Army Bill Agreed To.**

WASHINGTON, Jan. 23.—The conference on the army reorganization bill reached a final agreement on the bill to-day, but the measure was so complicated and the amendments so numerous that the agreement probably will not be reported before Friday.

The Senate Department of the bill, which was considered for a regimental rather than a corps organization of the artillery, was the most important difficulty, when a settlement was reached on that point to come to an agreement upon other points. On the next most important controversy, that concerning the detail of officers to staff, the Senate and House agreed to practically as they passed the Senate.
